FIRE RATED LETTER BOX LINER KIT RANGE

Description

The **Firesure®** Fire rated Letter box liner kit is manufactured from **Firesure®** intumescent material. They are for use in solid existing FIRE RATED doors only to upgrade were due to type and style of existing letter plate and flaps they cannot be removed , this is generally were they are listed or special to the door and building needs Fire rated Letter box liner is the same as used on new fire rated letterboxes. Fire tested to 40 minute fire test making it suitable for 15 or 30 minute rated door sets. The **Firesure®** Letter box liner range is designed to be easily retrofitted into the existing doors just as easily. For all doors **Firesure®** range of hinge and lock intumescent seal paper and fire tested security viewers or complete new letter plates with liners that are fire rated are available on application.

The FPC range of **Firesure®** is probably the only range backed by **Failure to perform insurance** called **Efficacy insurance** (or 'failure to perform' cover) protects you against the legal liability for injury to third parties, or damage to third party property, when a product or service you supply fails to perform its intended function subject to being fitted all in accordance with specified installation details and within the tested scope of application. Covered up to £10,000,000.00 .
